Diversey Hygienizer Kit

Do your bit ...
sanitize
it!

Diversey Hygienizer is a thoughtfully designed kit that helps you maintain hygiene with ease. What's visibly clean is not always practically safe. This kit enables you to take preventive measures and keeps your health and safety, in your hands.

SPRAY

Spray Oxivir® RTU One-Step Cleaner onto a dry wipe

WIPE

Wipe all hard surfaces around you with Dry Wipe

RUB

Dispose the wipe and rub SoftCare to sanitize your hands

A 3-step ease that fights the disease.

Diversey 
Hygienizer

Intrigued to know more?

#AskYourAdmin

SPRAY

Oxivir® RTU One-Step Cleaner
500 ml

WIPE

Hygienizer Dry Wipes Pack
25 N Pulls

RUB

SoftCare Hand Sanitizer
200 ml

DIRECTIONS FOR USE

STEP 1

Open the Diversey Hygienizer kit. Take out the Oxivir® RTU one-step cleaner spray bottle

STEP 2

Pull out one sheet of the dry wipes and fold it once

STEP 3

Turn the knob of the spray bottle on and spray the liquid onto the wipe (4-5 sprays) ensuring a uniform spread

STEP 4

Wipe parts of non porous surfaces like desk, arm rest, drawer handles and any other hard surfaces you're likely to touch and allow to air dry

STEP 5

Use different sides of the wipe and for each side use 4-5 sprays

STEP 6

Dispose the wipes in the non- biodegradable bins

STEP 7

Turn the knob of the spray bottle to off mode and put it back into the kit.

STEP 8

Once desk cleaning is complete, apply 2-3 ml of SoftCare hand sanitizer on your palms and rub it dry for personal hand sanitization

SANISAFE Automatic Hand Sanitiser Dispenser

SANISAFE AUTOMATIC HAND SANITIZER DISPENSER CONTROLLED DISPENSING VOLUME EVERY TIME

MRP ₹8,490/-

Automatic Hand Sanitizer Dispenser is a touch-free dispenser operating through Advanced Infra Red sensors, eliminating the requirement to touch the dispenser, ensuring highest level of hygiene and preventing the spread of germs.

Simply place your hand under the dispenser. A measured dose of sanitizer will be dispensed.

Can be installed at the entry point of buildings like office complexes, hospitals, housing societies, malls, hotels, restaurants, school and colleges etc.

FEATURES:

- **ABS Housing:** Durable, water-resistant and rust-proof
- **Automatic Dispenser:** Built-in sensor to sense the hands underneath its nozzle
- **Touch-free Usage:** To prevent cross contamination
- **High Capacity:** 8 litre storage tank, suitable for heavy traffic usage like in offices, factories, hospitals, shops, residential societies, institutions, hotels, restaurants.
- Transparent design for the visibility of sanitizer
- Sleek, compact design to enhance the interiors
- Controlled dispensing volume every time
- Electricity-operated
- Wall-mounted or table-top

Portable Sterilisation Card

Portable Sterilisation Card

- Safe and non-toxic ingredients, no harm to human body.
- Up to 99.9% sterilization rate, it can effectively help you block the bacteria, fungi and molds floating in the space.
- Suitable for both kids and adults use, perfect for health caring.
- Comes with a lanyard for more convenient use.
- 60 days of lasting protection.
- Suitable for using in school, supermarkets, offices and other places with dense crowds.

MOQ, Rates and Delivery Timeline: Available on request.

When applied safely and effectively, Chloritab is effective in killing harmful viruses, mold and spores and far less corrosive than most other fumigants. Due to its nature as a gas that does not condense on surfaces, an area can be re-occupied, and operations can resume immediately upon aeration

Effective in both liquid and gas phases • Easy to use and generate so you can dramatically reduce your service time

Proposed Applications With CHLORITAB –

- **Surface Sanitation:** 1 gm CHLROITAB can produce 1000 ml liquid of disinfectant. This is effectively used for wiping, spraying.
- **Mopping and Floor Cleaning:** 10 gm CHLROITAB can produce 10 litre of disinfectant. This is effectively used for mopping, internal and external hard floor surface.
- **Closed Room Fumigation in Absence of Human Presence:** 20 gm CHLORITAB – take 500 ml water in a plastic bowl and add 1 tablet of 20 gm. Keep it overnight. Small Aerator can be used for faster release

MOQ, Rates and Delivery Timeline: Available on request.

Safety Key Premium Option

Plastic Safety Key

Specifications

- Lift button both (Normal & Sensor)
- Sanitizer bottle push
- Door (Push and Pull)
- Control switches
- Stylus for Mobile/iPad's
